

WOOD

The warm beauty of wood enriches our lives. Its natural charm inspires the imagination and its rich texture rewards the touch. But wood is organic – it needs to be protected. In nature, trees are protected with bark. Now you can protect just as naturally with Sansin Enviro Stain.

COLORS

THE NATURAL BEAUTY of

THE SECRET TO BEAUTIFUL COLOR

We've harnessed the power of nano technology to create color like you've never seen before. An innovative process atomizes the highest quality pigments into tiny particles so incredibly fine – less than a billionth of a meter – that they combine with the protective oils and resins in Sansin Enviro Stains on a molecular level. Once applied to your home or deck, Sansin's penetrating stains pull the pigmentation down into the wood for uniform color that is so vibrant and long-lasting it has to be seen to be believed.

INSPIRED BY NATURE

With a huge range of choices – including our interior color line-up below – you can be sure of finding the color to suit your every project. For inspiration, our designers simply turned to the everyday miracles of the natural world. And should you have a color in mind that isn't available in our collection, our custom mixing program lets you bring it to life.

THE RIGHT CHOICE FOR YOUR WOOD

The warm beauty of wood has inspired humanity since the beginning of time. From the elegance of traditional Scandinavian full-scribed log homes, to Europe's post-modern constructions, to the weathered charm of the seaside homes of the Eastern Coast – wood defines and shapes their unique character. The grain and knots in wood, like the lines in our own faces, express its inherent character and personality.

WHY HIDE THE PERSONALITY OF YOUR WOOD?

Sansin Enviro Stains let the personality of your wood shine through. Whether you choose a penetrating or barrier coat formula, Sansin brings the character of your wood to life with exceptional clarity and crisp, clean colour. After all, if you plan on using a naturally beautiful material like wood, why cover it up?

- **Saturated:** Classic or Dec
- **Ultra Saturated:** Classic, Dec or SDF
- **Saturated/Ultra-Saturated:** ENS or ENS Deep/White Base

SATURATED

Color that stands out in a crowd.

Color may vary depending on texture, grain, color, porosity and type of wood and may not be exactly as illustrated. Always test the purchased product on an inconspicuous part of the project to ensure the color and transparency meet expectations of your control sample.

ULTRA-SATURATED

Powerful color that makes wood sing.
