

Naturally perfect[®] wood protection with Sansin Enviro Stains[®].

ENVIRO STAIN[®]

WOOD COATINGS THAT COMBINE THE BEST OF BOTH OIL AND WATER

Modified natural oils and resins penetrate deep into the wood's cell structure using one of nature's commonplace miracles – water. As the water evaporates, Sansin bonds directly with your wood, forming a tough,

durable barrier that won't crack, peel or blister. As a leader in the field of enviro-friendly coatings, the proven performance of Sansin Enviro Stains will bring the natural beauty of your home to life for years to come.
